Royce Hanson, Chair  
Planning Board  
Maryland National Park and Planning Commission  
8787 Georgia Avenue  
Silver Spring, MD 20910

Dear Chairman Hanson,

RE: Case # 12008410

We are against having a storage facility built in our neighborhood. We are against this for the following reasons:

1. It goes against our agreed upon plan for our community.
2. It is not a good location right next to the high school.
3. There is so much congestion at the corner of Bentley Road and Highway 108 with the filling station and the high school, the added congestion would very much cripple traffic even further.
4. We have had several robberies in the community as of lately, adding a place where people are coming and going at all times of the day would only contribute to this problem.

Sincerely,

David and Catherine Berglund
